

# KAMAY BOTANY BAY ENVIRONMENTAL EDUCATION CENTRE

## International Study Tours

### Overview

Kamay Botany Bay National Park is located on the southern side of Botany Bay. Aboriginal people lived at this site for thousands of years. In 1770 the local Aboriginal people meet with James Cook and the crew of the Endeavour. The bay was named by Cook and Sir Joseph Banks because of the interesting flora on it's shores. The bay is now an important cargo port.
